# Fall HOME IMPROVEMENT

# A beginners guide to fall planting and maintenance

Spring and summer are perhaps the busiest times of year for gardeners. However, fall also is a prime time to tend to gardens.

Page 2

The tree and bare root retailer Bower & Branch advises that soil temperatures in many regions of the country may still be warm enough to encourage root growth well into the start of winter. Furthermore, fall is often the ideal time to plant, fertilize and keep a garden going or to get a head start on next year's bounty. of color as summer flowers fade. Also, its a good idea to stock up on bulbs that will bloom in the months

Here are some tips to make the most of the fall gardening season.

# Think about fall annuals and bulb planting

Near the end of September, start planting  $c \circ ol \cdot w e a t h e r \cdot l \circ v i n g$  pansies and violas for pops

   Multiple aerial lifts with 60-112 feet of reach

Eagle River: 715-477-2900 Tomahawk: 715-453-2407 Minocqua: 715-358-2406 Presque Isle: 715-686-2407 www.foleystreeservice.com of color as summer flowers fade. Also, its a good idea to stock up on bulbs that will bloom in the months to come before they sell out in stores. Wait until the temperatures really cool down before planting them in desired spots for spring sprouts.

# Sow salad seeds

Lettuce, spinach, radishes, and arugula tolerate cooler temperatures. Try new and interesting lettuce varieties and enjoy salads well into the fall season.

# Take inventory of the sun

Positioning a garden carefully means maximizing hours of sunlight, which begin to dwindle in the fall. Experts say gardens grow best in sunny locations that receive six hours of direct sunlight each day. This is where container gardens can be helpful, as they allow gardeners to move plants into spots that will get ample sunlight.

# Fill in landscaping gaps

**gaps** Some fall plants can add color around the landscape and brighten up homes to add curb appeal. In addition to pansies and violas, asters, kale and chrysanthemums are fall blooms. Keep in mind that mums can come back year after year. So take them out of those flower pots and get them into the ground.

Lightweight self-propelled grinder, great for

They can be enjoyed next year as well, sprouting in early spring and developing leaves and buds through late summer.

## Clean up unwanted growth

Fall is an ideal time to cut back spent vegetable plants and get rid of errant weeds. Rather than bagging leaves, mow them with a grass catcher and then add the mix to a vegetable garden as an excellent soil insulator. The nitrogen and carbon will fertilize the soil, enhancing growing possibilities and limiting weed growth.

# Fall HOME IMPROVEMENT What to know about floor-to-ceiling windows

Modern homes showcase many dazzling features, but perhaps none draw as much as instant attention as floor-to-ceiling windows. Often seen in high-rise apartments that boast panoramic city views, floorto-ceiling windows also are right at home in singlefamily dwellings.

Homeowners considering windows floor-to-ceiling may have lots of questions. The following rundown can provide some basic information that can help homeowners decide if floorto-ceiling windows are right for their homes.

## Cost

Cost is often the primary consideration when mulling a home renovation, and that's even more significant as the world confronts the rising costs associated with inflation.

The cost of installing floor-to-ceiling windows depends on a host of variables, including how many windows will be needed and where homeowners live. According to Modernize®, a service that facilitates connections between renovation-minded homeowners and local contractors, a floor-toceiling window wall costs the long haul, a wall of less somewhere between \$700 to \$1,600 per linear foot.

Framing and glazing will add to those costs. Homeowners considering floor-to-ceiling windows are urged to receive several estimates for the project prior to choosing a contractor.

# Lighting and energy efficiency

One of the more appealing aspects of floor-to-ceiling windows is all the natural light they allow in.

Of course, all that light also can drive up energy costs on sunny summer days. One way around that is to install energy efficient windows. Such windows include extra insulation to prevent cool air from escaping the home on summer days, which can reduce the need to lower the thermostat on your air conditioning.

A wall of glass also can provide less insulation against the cold. The extra  $insulation\,in\, energy\, efficient$ windows also helps keep warm air from escaping a home in the winter. Energy efficient windows may cost more than less efficient alternatives. However, over efficient floor-to-ceiling windows will likely cost more due to excess energy consumption.

# **Privacy and fading**

It's easy to be overwhelmed by the view floor-to-ceiling windows provide, especially in homes surrounded by serene natural settings like woods or properties that abut waterways.

But that view outward also provides a view in, potentially compromising privacy. All that extra exposure to sunlight also can cause fabrics to fade over time. Floor-toceiling blinds and shades can protect homeowners' privacy and reduce fading on furniture, but this extra feature will add to the final cost of the project. Smart window tinting is another way to improve privacy and reduce fading, but this feature also will drive up the cost.

Floor-to-ceiling windows can be awe-inspiring. Homeowners considering such windows for their homes are urged to do their homework to ensure their homes are well-suited to this unique feature.

Page 3

# How to make a home more cozy

The meaning of the term some ways to impart a cozy "cozy" varies as it pertains to home decor. For some, cozy may mean intimate spaces with lots of quilts and throws. For others, cozy could indicate bright and airy spaces enhanced by plenty of fresh foliage.

Regardless of how they define cozy, homeowners typically want their homes to be inviting and comfortable. With that in mind, the following are

vibe to any living space.

## Make use of a fireplace

Flames lapping wood (or faux wood in the event of gas-powered fireplaces) can put anyone in a tranquil state of mind. Fireplaces add instant ambiance and make great places for people to congregate and engage in conversation. During warmer months when the fire isn't blazing, decorative

candles can be lit to mimic the same feel.

## Add texture in the design

Texture can be anything from a raised pattern on wallpaper to a knotty area rug to a mosaic piece of artwork. A home with texture tends to create cozier impressions than one with all sleek and smooth surfaces.

# Fall HOME INPROVENENT Tips before deciding to do a DIY demolition

improvement Home projects can range from relatively inexpensive undertakings to complex endeavors that cost homeowners thousands of dollars. In an effort to make expensive projects more homeowners affordable. may look for ways to pitch do-it-vourself in. and demolition is a common way to cut costs.

Due to geographical fluctuations in price as well as the scale of a project, it's hard to pinpoint just how much homeowners can save by doing demolition work themselves.

HomeAdvisor estimates that the average small interior demolition project costs just over \$3,000, though more significant demolition projects can cost considerably more than that. Given the cost, it's no surprise that so many homeowners volunteer to do demolition on their own.

Though it's possible to do so safely, homeowners can take steps to determine if it's in their best interest to take on a DIY demolition or leave it to the professionals.

Conduct a cost analysis Demolition projects

Cozy FROM PAGE 3

# Enjoy a soft rug

Although many design experts say hardwood floors or laminate options are easier for allergies and keeping a home clean, a soft rug underfoot can be welcoming. Rather than wall-to-wall carpeting, place area rugs in spots that can seem simple, but they often require the use of equipment most homeowners don't have on hand. Rentals can be considered in such instances, but the cost of renting equipment can reduce the amount of money homeowners are saving by going it alone. For example, homeowners may be able to pull up vinyl or tile flooring on their own, but not all floors are installed the same.

Some floors may have been glued more effectively than others, making it hard and/or time-consuming to pull them up by hand. A walk-behind floor scraper can make it easier to remove such floors, but that equipment must be rented. A cost analysis comparing the contractors' demolition cost estimate and the cost of DIY, complete with equipment rental projections, can give a more accurate picture of how much money homeowners will save by going it alone. If the savings of DIY are negligible, homeowners should probably let the contractor handle the demo.

Speak with your contractor

Prior to saying they'll do

use some cozying up, such as beneath beds and even under the dining table.

# Light candles

The warm, flickering light of candles adds cozy vibes in spades. According to The Spruce and Paula Boston, a visual merchandiser for Festive Lights, candles can be used throughout a home to create an instant atmosphere. Exercise caution with candles and fully extinguish them before the demo work on their own, homeowners should speak with their contractors to get an accurate idea of what the project will entail.

Demolition projects may seem simple enough, but contractors can illustrate the correct way to do things so as to minimize potentially costly damage. Some contractors may offer to help homeowners start the demo project and then leave them to their own devices once they get a knack for what to do. Once homeowners see what it will take, they can then decide if DIY is best for them.

# Enlist help

No DIY demo should ever be done alone. The risk for accident and injury is simply too great for homeowners to go it alone. Homeowners who can't enlist some volunteers to pitch in should leave the job to the professionals.

DIY demolition can save homeowners a lot of money. But such projects are not necessarily as simple as they seem. Homeowners should take steps to see exactly what they're getting into before they volunteer to take on demo duty.

retiring for the evening. Update bedding for the season Orim and light setter

Crisp and light cotton and linen are cozy materials when the weather is warm. But when the temperature starts to dip, flannel or jersey bedding makes a bed that much more inviting, says Real Simple.

# Invest in lots of pillows

Pillows can instantly make a spot more cozy,

whether it's the living room sofa or an outdoor lounging nook. Look for materials that are durable for the space in which they're being used.

# Think about warm lighting

The transition from incandescent light bulbs to halogen and LED is beneficial from an environmental standpoint. However, LEDs illuminate with a more stark, blue light that can seem clinical in home spaces. Look for bulbs where the "temperature" can be customized. The more the color spectrum leans toward warm light, the more cozy a space will feel. This can be enhanced by putting some lights on dimmer switches, and toning down the brightness as needed.

**Install a bookshelf** Even for those who are strict devotees of e-readers, a shelf full of actual books interspersed with some well-placed knickknacks can make a room feel more cozy. Books add texture, the feel of hallowed halls and libraries, and visual appeal.

Making a home more cozy doesn't have to be complicated. A few easy modifications can improve interior spaces.

# Fall HOME IMPROVEMENT **Kitchen cabinets: reface or replace?**

The kitchen is a busy room in many homes. That popularity likely has something to do with why so many homeowners spend sizable sums renovating their kitchens.

According to highlights from the 2022 U.S. Houzz Kitchen Trends Study, the median spend on major kitchen remodels grew by 14 percent from the previous year, and minor remodels increased by 25 percent.

Spurred on by increased time spent at home during the pandemic, the main kitchen impetus for remodels according to the study was that homeowners wanted to make these improvements all along and finally had the time and means to do SO.

There are many aspects of a kitchen that homeowners can change.

Houzz found 94 percent of renovators either fully or partially replaced cabinets in their improvement plans. Cabinets are a major component of kitchen layouts. Cabinets help to establish the aesthetic of a kitchen and serve a useful function, providing necessary storage space to ensure the room does not appear cluttered.

Homeowners have different options when it comes to cabinet renovations, and they may need to decide if they need to replace or reface their cabinets.

# Replacement

Cabinet replacement involves removing all of the existing cabinets before new cabinets are leveled and installed.

According to the home improvement resource The Spruce, homeowners can expect to pay between

\$13,000 and \$30,000 for contractor grade cabinets. Cabinet replacement is a good idea when homeowners want to add more cabinet space or create a new layout in the room.

# Refacing

Cabinet refacing is less messy and less disruptive than replacement. All cabinets remain the same size and in the same location.

The cabinet boxes must be in good shape to facilitate a refacing. The process involves installation of new drawer fronts and cabinet doors, as well as veneering of the cabinet boxes. New hardware typically is installed as well. The insides of the cabinets typically remain the same.

The Spruce says cabinet refacing can be 30 to 50 percent cheaper than a

replacement.

Most people call in professionals to change their cabinets. Cabinet replacement can be a do-ityourself job, but it involves measuring and ensuring everything fits and is leveled appropriately. Homeowners who choose to reface their cabinets themselves may opt to paint or restain. Wood veneer or a new door and drawer panel installation can be complicated and is best left to qualified contractors.

#### NORTH WOODS TRADER

# Old time charm welcomes guests at Eagle Waters Resort & Supper Club

Eagle Waters Resort & Supper Club continues to be a beacon along the shores of the Eagle River Chain of Lakes, offering visitors to the area unbeatable lodging amenities, alongside historic supper club dining.

They are a true full-service "old-school" gem — a landmark property with decades of tradition dating back to 1857.

The rich history of the lodge dates back to the fur trading and logging era when the property consisted of a trading post, bank, and the first regional post office. The property also served as a resting spot for loggers as they sourced lumber down the Eagle River Chain of Lakes.

Today, Eagle Waters is a four-season resort offering an array of amenities to go along with 60 lodging units.

"If the grand, arched ceiling beams and wooden walls could talk, they would speak of the many celebrations and joys experienced through the years," said Eagle Waters Resort owner Laura Koranda.

The family-friendly restaurant is open to the public and includes two bars, dining rooms and wood-burning fireplaces; banquet and game room; and seating for large groups. The restaurant features a full menu including seafood, pasta, pizza, gluten-free items, vegetarian dishes, small plates and children's meals.

"We have a mixed selection of fine foods in a casual North Woods atmosphere," said Koranda.

People can check the North Woods Trader and eaglewaters.com for current dining hours and a special events schedule.

Currently, Eagle Waters Resort Restaurant is open Thursday thru Saturday from 5 to 9 p.m. Those looking to have a cocktail before dinner can do so starting at 4:30 p.m. Eagle Waters Resort is famous throughout Wisconsin for its offerings during the winter season, added Koranda.

Eagle Waters is located on Eagle Lake, which is part of the 10-lake Eagle River Chain of Lakes. The chain totals nearly 3,600 acres for boating, recreation, and world-class fishing.

Come by land or come by water to Eagle Waters Resort & Supper Club located on the Eagle River chain of lakes.

There is nothing more North Woods than a roaring fireplace and a Wisconsin supper club. Eagle Waters Resort & Supper Club boasts one of the areas most iconic settings for dinner. —Contributed Photos

When combined with the adjoining Three Lakes Chain, the waterway forms the largest freshwater chain of lakes in the world.

Eagle Waters Resort includes Kee-Mi-Con Lodge, rental cabins, duplexes and condominiums. Kee-Mi-Con Lodge features professionally designed interiors that aim to offer the perfect balance of modern convenience with a true North Woods-style "home away from home."

The resort offers guests complimentary access to the exercise facilities which include a sauna, bikes, canoes and kayaks. There is also a business center; tennis, basketball and beach volleyball courts; horseshoes; shuffleboard; park; and an outdoor heated pool and whirlpool are available to patrons.

Nonprofit events, school and sports banquets, comedy and theater, live music, dance, corporate training and reunions all have shared floor space at the historic resort. Eagle Waters Resort is also hosting a number of interactive cooking classes. A recent sushi class was well attended, and management said plans are in the works for more events in the future. Stay tuned for details.

# Wedding Venue

For generations, Eagle Waters Resort has been one of the North Woods most unique destinations for weddings, family reunions, events, retreats and family vacations.

"We reflect the true nature and true spirit of the North Woods," said Koranda. "Your wedding is meant to be one of the happiest days of your life and we understand what that means. Your wedding will be our priority."

Eagle Waters has professional staff members ready to assist individuals to incorporate their own ideas and visions to create the celebration and "wow" experience.

"Our restaurant, resort, and banquet facilities can accommodate weddings, events, banquets, retreats and reunions of any size up to 275 people," said Koranda. "We are here to help you."

Eagle Waters Resort is located at 3958 Eagle Waters Road, east of Eagle River, and is directly on the snowmobile trail. Visitors can take Highway 70 East to Rangeline Road to Eagle Waters Road.

For more information, visit eaglewaters.com or call (715) 479-4411.

What a panoramic view this lake property has! This custom built craftsman style home with 2740 sq ft of finished space sits on a private point with 300 ft of level frontage on Planting Ground Lake, a premier lake on the Three Lakes/ Eagle River Chain. Key architectural features include superb interior mill work with cathedral hickory ceilings, oak and cherry wood flooring. Note the main floor master bedroom en-suite and walk in closet and the 2nd bedroom with attached bath. Two additional bedrooms on second level along with lofted area gathering space gives plenty of space for guests. The living room is warm and welcoming with views of Planting Ground Lake from wall to wall triple pane windows. The gourmet kitchen has upgraded appliances and is adjacent to the lakeside dining room. Lower level is a full basement of 1840 so ft with earess windows has a 3rd bath plumbed in and some finishing of spaces begun. Attached garage, exterior has enhanced landscaping and permanent pier.
