**REDLINE HARROWS**

Redline Harrows have proven the most effective tool in management of a variety of field and surface options such as:

**Hay and Pasture Land Management:**

Mechanically stimulating hay, pasture and forage land is a proven, cost effective method to improve growth and strength of plant production. Use of the harrow to stimulate the ground will cover open seeds, speeding germination and establishment of new plants. This method is also effective for circulating dead thatch, important for decomposition and increasing speed at which nutrients are released into the soil. Use of a Redline Harrow will maximize the fertilizer benefits of existing droppings by promoting decomposition, aerating the soil, spreading nutrients, and leveling rodent mounds.

## MACON COUNTY REAL ESTATE AUCTION

# AUCTION

**FRIDAY, FEBRUARY 10TH AT 6PM**  
**THE VERNON & CAROLYN READ FARM**

**229<sup>±</sup> ACRES**  
**Offered in 4 Tracts**

**AUCTIONEERS NOTE:** There aren't many opportunities in this area to obtain such a well-maintained family-owned farm. Trading farms come and go but farms that are owned by such well known and well thought of people in the community, don't come up for sale often. This is a farm that will simply hold its value better than most.

The Vernon and Carolyn Read Farm will be offered at public auction on February 10th. This farm offers some great opportunities at some very highly maintained pasture, some outstanding tillable acreage and nice home and outbuildings, all located along highway 63 north of Macon.

**LAND INSPECTION:**  
 Walk-Over Inspections are Welcome Any Time.

This farm will be offered in four tracts, ranging from 37.8 to 90.9 surveyed acres.

**AUCTION LOCATION:** Comfort Inn - 1821 N Missouri St, Macon, MO 63552

**Attention Farmers & Investors!**
