

## Showcase Your Property

We are a professional photography service specializing in residential, commercial and FSBO property marketing. We opened in 2014 to provide real estate agents, brokers, commercial and private property owners quality professional photography services, including drone aerial photos.

## Photography Session

The photo shoot will take anywhere from 45 minutes up to 2 hours depending on the size of the house. All rooms of the property will be photographed (Kitchen, Living Room, Family Room, Bathrooms, Bedrooms, Master Closet). The garage will not be taken unless specifically requested.

## Professionalism

We are prompt, provide quality work, use top of the line equipment and have simple pricing plans. We produce quality images for your advertising from brochures, MLS listings, websites and virtual tours. We understand photography is one small part of property marketing, so we keep our prices affordable and our turnaround times fall between 24 to 48 hours.

---

*“Working with Charlie is an absolute pleasure! Very professional, beautiful photos - I could not be happier!”*

---

## Get Results

Our real estate photography covers every type of property from:

- farms
- rentals
- waterfront
- condominiums
- townhouses
- vacant land
- small to large homes
- office and retail buildings

No job is too big or too small. We seek to give potential buyers the best possible first impression of a property.

## Capture the Beauty

What better way to catch a buyer's eye than the perfect photo of the perfect home.

## Our Products and Services

We offer the highest quality photography in the simplest, most convenient way, so you can capture more business, win more clients, and sell more properties.

## Enhance your listing and accelerate your sale.

- Floor Plans
- Video Home Tours
