EMFACE

This treatment is a non-invasive, needle-free treatment that simultaneously lifts, tightens, and tones the face. This treatment reduces wrinkles, boosts collagen, lifts sagging skin, and improves facial symmetry. EMFACE addresses the **DOUBLE CHIN** area and overall facial laxity.

EXION Face *Full face, lips, and eye packages*

This treatment uses ultrasound and radiofrequency to increase the natural production of Collagen and Elastin and boosts Hyaluronic Acid production. This improves skin texture and addresses fine lines and wrinkles. This treatment brightens, tightens, and plumps the skin and can be added on to any of our laser treatments or as a stand-alone treatment.

RF Microneedling

This treatment combines the latest microneedling technology with radiofrequency energy to stimulate collagen production and improve skin texture and tone. RF Microneedling is considered the gold standard stimulation of Collagen and Elastin. This treatment improves skin texture and tone on both the face and body. We now have a very effective way to treat stretch marks and scars.
