105.55 Acres M/L of Farmland & Acreage in Cherokee County, IA
OFFERED IN TWO TRACTS
Section 30 of Silver Township, Cherokee County, IA
(Per Original Government Survey)
PUBLIC AUCTION - LIVE AND ONLINE BIDDING
Online Bidding @ BrockAuction.com & Click on HiBid
Monday, March 31st, 2025 @ 10:00 AM
SALE WILL BE HELD AT THE FARM SITE - 1313 650th St., Washta, IA 51061

OFFERED IN TWO TRACTS - TRACT 1: 99.35 M/L Acres - TRACT 2: 6.20 M/L Acres
METHOD OF SALE: TRACT 1 will sell first followed by TRACT 2, the tracts will sell separately and will not be offered or combined as one unit.
LAND LOCATION: From Washta: Go 5 miles East on C-66. From Quimby: Go 4 miles South on L-51, then go 1 mile East on C-66. From Holstein: Go 6 miles North on Highway 59, then go 4 miles West on C-66.
GENERAL DESCRIPTION: Brock Auction is proud to be offering this good, high quality Cherokee County Farm. This short 100-acre tract is located in Southwest Cherokee County conveniently on highway C-66 in Section 30 of Silver Township. This long-time farm has been in the family for many, many decades and has always been well cared for by good tenants. Located straight South of Cherokee, straight North of Holstein and 4 miles East of Washta gives you all kinds of marketing possibilities. The area is well known for its diversified livestock production, ethanol plants, grain elevators and co-ops give you all the options you need to give yourself lots of choices when marketing your grain. Also, it is just 1 mile North of the Ida County line. Excellent area known for strong stable production and efficient operations and strong pricing.

The Cherokee County FSA office currently has this farm combined with some other farm ground so the yields will be split out according to their program rules. You may find the entire program info on our website: **brockauction.com**.

The NRCS and Assessors office show the main soil types to be Galva & Judson and smaller amounts of Primghar and Afton. The farm carries a very nice CSR II weighted average of 85.3! **Awesome!**

Also selling separately is a 6.20 acre acreage that has an older 1½ story, 3 bedrooms home built in 1900. See our website for chronological information on the acreage and what work has been done on the acreage over the years to maintain it in its current state. The outbuildings include a 40'x60'x16', 2,400sq. ft. steel utility building built in 1988, a 40'x50' Barn and a 30'x40' corn crib. What a nice opportunity to enjoy the quiet country life and yet only be minutes away from several, very nice communities with good schools and all the amenities of town and city life as well. The acreage will sell immediately after the land. Give yourself and your family the opportunity to build and own something that is becoming a disappearing lifestyle, full of memories and growing up free to roam on 6 plus acres on a hard surface road. *Too cool!* You'll be glad you did!

Stay Safe From Shingles

1 in 3 people will get shingles. Prevention is possible.

Shingles can cause a painful skin rash and lead to serious health problems, such as long-term nerve pain and vision loss. Shingles stays dormant in your nervous system after you recover from chickenpox. Your risk of shingles increases with age.

The shingles vaccine is the best way to protect against the virus and its complications. The shingles vaccine is recommended for:

- Adults 19 and older with weakened immune systems.
- Adults 50 and older.

Ask your healthcare provider about the shingles vaccine.
