Home to 'community spirit' and 'pride'

FROM STAFF REPORTS

The city of Springtown offers several features and activities for families and children alike, making the town a great place to live, work and play.

The city offers a 33-acre park with amenities like soccer and baseball fields, sand volleyball courts and disc golf. A walking/jogging trail winds through the park and passes by an area of creek bed which hosts a newly discovered set of dinosaur tracks.

"We also offer the Springtown Legends Museum City of Springtown:

Home to 'community spirit' and 'pride' which captures Springtown's rich heritage and community spirit that is still the driving force which makes Springtown the best place to be in Parker County," said Christina Derr, the city's director of administrative services.

Residents and visitors to Springtown can visit the nostalgic historic square that is centered on a preserved open-air Tabernacle, which adds to the town's Old Fashioned Christmas celebration and the annual Wild West Festival.

"Springtown is a unique community that is rich in

history and tradition," Derr said. "One can't help but sense the community spirit and pride when visiting the city, and that is especially true during the Wild West Festival."

Derr said the city will continue to grow and create a positive environment for future generations of Springtown residents.

She added, "As the city of Springtown moves into the future, our vision includes continuing to provide quality parks, events and activities that are geared towards creating a sense of community spirit that will carry on for generations to come."

Colt Midstream safely delivers energy to the community

FROM STAFF REPORTS

Colt Midstream is a producer-focused natural gas gathering and processing company in the Fort Worth Basin and Barnett Shale. Colt is privately-owned and operated. Headquartered in Houston, Colt also has field offices in Weatherford, Springtown, Eastland, Jacksboro and Decatur. We consistently serve our producers through superior customer service and reliability. Colt owns and operates

over 3,700 miles of pipeline, over 100,000HP of compression, and 135 MMscfd of active processing capacity across 14 Texas counties

NATURAL GAS GATHERING AND PROCESSING

Colt's system gathers and compresses raw natural gas from wells and transports it to gas processing plants through low-pressure pipelines. Once the gas arrives at our processing plants, it's processed into natural gas

TRANSMISSION OF NGL AND RESIDUE GAS TO MARKET

Once natural gas liquids (NGLs) and residue gas emerge from a plant, they're ready for distribution to energy markets. Colt's pipelines take the products from the processing plants to

end markets, which distribute gas to the community for heating and powering homes.

CONDENSATE PROCESSING (STABILIZATION)

Unrefined (high vapor pressure condensate and off-spec NGL) gas product needs additional processing to become a marketable energy

source. We take this commodity and process it into on-spec NGL product and a high-gravity crude stream.

COLT strongly supports Public Awareness and Community Outreach.

There is a whole world that lives beneath our feet, including pipeline infrastructure used to run our homes, hos-

pitals, and businesses

Meeting with the community, public officials and first responders is important to Colt.

Taco Casa

*Celebrating more than two decades
20 years of quality food, service*

FROM STAFF REPORTS

Taco Casa is a beloved fast-food establishment in all of North Texas, and Springtown is no exception.

"People love Taco Casa," said Springtown Taco Casa Owner Tom Loughrey. "When I make everyone aware that I am a franchisee of Taco Casa, their eyes light up, they get a big ol' smile and 99.9 percent of them say, 'I love Taco Casa.' It's fun to be a part of that product and that brand that people love so much."

For more than 20 years now, Taco Casa of Springtown has been dishing out fresh food to its customers and creating a family-oriented atmosphere.

"We want it to feel like

you're eating a home cooked meal," Loughrey said. "We've got people that's worked for me since day one and in fast food, that's very rare, but these people are like family, and they treat our customers like family. We do our best to provide a quality product with excellent customer service each and every time you come in."

The most popular item on the menu is, unsurprisingly, tacos, followed by 'chiladas.

"Our philosophy is 'keep it real simple,'" Loughrey said. "We have 16 menu items — 17 if you count our little Casa Delites, which is our dessert."

Of course, it's not hard to have a successful fast-food joint if you have over-

whelming support from the community.

"The community has treated us very well and the Chamber of Commerce in Springtown has been a strong advocate of Taco Casa and supported us in the community," Loughrey added. "Taco Casa corporate has supported us from day one, and they've delivered a wonderful product that's really easy for us to sell as long as we give out great customer service — and that's what our goal is, to meet and exceed our customer's expectations every time they come in."

Taco Casa is located at 101 W. Highway 199 and is open from 10 a.m.-10 p.m. daily.

Parker County Hospital District has several programs to meet community needs

FROM STAFF REPORTS

The Parker County Hospital District offers a host of services.

One of those is the Campbell Clinic, which is a family practice providing care to those patients who are two months and older. Male and female providers are available. The clinic accepts most commercial insurance, Medicaid and Medicare. Sliding scale is available upon approval. There are also in-house lab, child and adults vaccines and workers comp for select payors. Bilingual staff are available. To schedule an appointment, call 817-458-3370.

The district also administers the County Indigent Health Care Program, better known as the Medical Assistance Program (MAP) for Parker County residents.

Designated as the payor of last resort, MAP is designed to provide covered medical services to low-income residents who have no other public or private health care benefits and who meet all eligibility requirements of the program. MAP utilizes medical services through local physicians, hospitals, and other facilities. Eligibility is determined by residence (must live in Parker County); income, as an individual's income may not exceed 200% of the Federal Poverty Level; resources, as an individual's resources may not exceed \$1,000 per month (this in-

To schedule an appointment or for more information, please contact the MAP office at (817) 458-3358.

An outreach program for immunizations is available, and can be acquired through the district. Adult and child immunizations (office and mobile), cholesterol screenings, blood pressure and glucose screenings and state certified vision and hearing tests are available.

For more information, call 817-458-3254.

The district has a telemedicine program, which is a partnership between Parker County schools and Parker County Hospital District to provide medical care onsite at each campus and remote clinic. Through the use of telemedicine, the health care needs of staff and students can be met in a convenient setting with each campus nurse. The purpose is to increase the educational success of students and staff by assuring access to health care. Early treatment can decrease the need for expensive medical care and unnecessary emergency room visits.

Brookshire's: Putting the customer first since 1928

FROM STAFF REPORTS

Brookshire's Grocery Co. (BGC) has been supplying groceries to community members and local residents for close to 100 years.

BGC was established in Tyler on the courthouse square in 1928 as a family business. The original owner, Wood T. Brookshire, started the grocery store with only four employees in a small, 2,500 square foot store, according to the

Brookshire's website.

Now, BGC currently operates more than 200 stores in four states: Texas, Louisiana, Arkansas and Oklahoma.

Known for its great variety of quality fresh products, BGC puts its focus on people, just like Wood T. Brookshire did 93 years ago when he made the decision to put the customer as "top priority."

The grocery chain has

come a long way since its establishment, but the store is still "focused on offering the same exceptional customer service it was founded on."

The company's mission is "to create and deliver exceptional experiences and value through the W.T. Brookshire Way."

Brookshire's in Springtown is located at 501 E. Highway 199, and is open 7 a.m.-10 p.m. daily.

WILD WEST FESTIVAL SPONSOR

Pinnacle always available to help in banking, life

FROM STAFF REPORTS

Lending a helping hand is just part of living in a small town.

The staff at Pinnacle Bank, sponsors of the 38th annual Wild West Festival, knows all about helping their neighbors both in the banking business and in life.

Their sponsorship of the town's annual festival is just one way Pinnacle Bank gives back to Springtown.

The bank's support of Wild West has a lot to do with its focus on community banking – a concept fostered by the home office in Nebraska several decades ago.

Pinnacle Bancorp was founded by a Nebraska banking family in 1938. That same family runs the organization today.

With the backing of a large

organization, the Springtown bank can provide its customers with all the services they need – from free checking and debit cards to an array of online banking services.

The bank also specializes in consumer, commercial, and real estate loans.

Paige Slate, Market President, says she feels blessed to work for a company that allows the Springtown Branch to invest time and money in our community.

To see how much Pinnacle Bank values community, see the stories at whycommunitymatters.com.

To use the bank's online services via the Internet, tap into www.pinnbanktx.com.

Pinnacle Bank is located at 726 E. Hwy 199 in Springtown.

Texas Blue Skies Construction makes remodeling dreams come true for Springtown area residents

Texas Blue Skies Construction owner Chris Vinson

FROM STAFF REPORTS

Texas Blue Skies Construction provides home remodeling services to customers in Springtown as well as surrounding areas, such as Willow Park, Aledo and Weatherford. Customers trust Texas Blue Skies Construction to handle kitchen remodeling, bathroom remodeling as well as home renovations and additions.

For kitchen remodeling, Texas Blue Skies Construction can help with expanding the area, modernizing lighting, adding new countertops and custom cabinets, installing new appliances and changing the kitchen layout, among other projects. Kitchen remodeling projects range from \$53,000 to over \$100,000.

In bathrooms, customers can go to Texas Blue Skies Construction to replace countertops, adding in a new showers, tubs and vanities as well as new light fixtures and more, so that the bathroom feels like an at-home spa. Bathroom remodeling projects range from \$25,000 to more than \$63,000.

Texas Blue Skies Construction can also help residents rethink their homes by taking down walls to maximize space, updating fixtures and appliances, adding rooms or second stories and remodeling and repainting rooms, among other projects. Home renovations and additions range from \$150,000 to more than \$400,000.

All prices depend on the size of the work area, materials used and accessories as well as the customer's needs and wants for the project.

Texas Blue Skies Construction has successfully completed more than 20 bathroom remodeling projects, more than 10 home renovations and additions and more than five kitchen remodeling projects.

The process starts with filling out a form online and then getting a consultation over the phone and on-site. After a contract is signed, the design phase begins, and the home and customer are prepared for the work to start. Once the project is finished, Texas Blue Skies Construction sends out ex-

pert cleaners to clean up the work site. Texas Blue Skies Construction offers a five-year labor warranty, and the company checks in with its customers every six months for two years to ensure that residents are enjoying the renovation.

Honesty is very important to Texas Blue Skies Construction owner Chris Vinson. Vinson said he has seen other contractors in the industry be dishonest with their clients, which usually doesn't end well for the client. Vinson hopes to reach more people, so he can keep the dishonest contractors away from them and their homes.

"I love helping people just like you get the space you need to fit your lifestyle," Vinson said on his company's website. "The best way to do that is by being honest, communicative and humble. Then we can have an incredible experience together."

To schedule your consultation, visit Texas Blue Skies Construction's website at <https://www.texasblueskiesconstruction.com/contact-us/> or call 817-694-8233.
