Market Report — September 14, 2023:

Had a shorter run of fats for our Thursday September 14th auction, but had a steady market from past weeks, sending the top fats out at 185.00. We finished the afternoon with a short run of feeders. If you want to move any feeders, a date to remember will be Monday October 9th with some super sets starting to come onto the list, please give us a call and we would be happy to stop out and visit with you about our upcoming specials.

Safety Tips for Home Improvement

Call 8-1-1 before digging. It's free, prevents the inconvenience of having utilities interrupted, and help you avoid serious injury.

Never trim trees near power lines. Leave that to the professionals.

Check the condition of cords and power tools before using them. Repair or replace worn or damaged cords & tools.

Never use water or blower extensions to clean gutters near electric lines. Contact a professional maintenance contractor.

Be careful when working near power lines attached to your house. Keep equipment and yourself at least 10 feet from lines.

Look up and around you. Always know the location of power lines, especially when using long metal tools like ladders, pool skimmers, and pruning poles.

If it's raining or the ground is wet, don't use electric power or yard tools. Keep electric equipment at least 10 feet from wet areas.
